

## NTi Audio cordially invites you to a free live webinar on Thursday 25th April 2019.

### Webinar: Acoustic Performance of Classrooms

The acoustic performance directly affects the speech intelligibility within a classroom, which in turn has a big impact on the learning success of the students.

The webinar therefore explains how to evaluate the acoustic performance, introduces typical target specifications, and introduces potential measures to improve a deficient classroom.

The presentation will be offered in English and German. Register for your most convenient date and time below:
