PCB Piezotronics, Inc. Launches
New IP68-Rated Connector and Cables
Fully submersible for use in wet environments

April 15, 2019 Depew, NY – PCB Piezotronics, Inc., a wholly owned subsidiary of MTS Systems Corporation (NASDAQ: MTSC), has released the new Connector Model RB and the Cable Model Series of 034Wxx and 078Wxx. These new four-conductor, shielded cables are suited for Automotive, Test & Measurement and Aerospace & Defense applications where water, moisture and dust may be a concern. The sensor end, a 1/4-28 4-Socket Plug, is designed to be submersible in water and is IP68-rated to a depth of 1 meter for 4 hours. The 034W cable assembly can also survive temperatures from -76 to 325 °F (-60 to 163 °C). Multiple lengths and configurations are available and in stock to meet application needs for RLDA testing, water tunnel testing, and environmental testing. The 034W and 078W cables can also be ordered with custom lengths and the following DAQ-side connector options:

- **No Connector**
BZ (blunt cut), AD (pigtail), DZ (pigtail for 3711 series)
- **1/4-28 Connector**
RB (4-socket female), CA (4-pin male)
- **Triple Splice**
JW (BNC plugs), LA (10-32 plugs), LC (SMBs), GR (blunt cuts), JR (pigtails)

Examples: 034RB040JW, 078RB015RB

About PCB Piezotronics, Inc.

PCB Piezotronics, Inc. is a designer and manufacturer of microphones, vibration, pressure, force, torque, load, and strain sensors, as well as the pioneer of ICP technology used by design engineers and predictive maintenance professionals worldwide for test, measurement, monitoring, and control requirements in automotive, aerospace, industrial, R&D, military, educational, commercial, OEM applications, and more. With a worldwide customer support team, 24-hour SensorLine, and a global distribution network, PCB is committed to Total Customer Satisfaction. Visit www.pcb.com for more information. PCB Piezotronics, Inc. is a wholly owned subsidiary of MTS Systems Corporation. Additional information on MTS can be found at www.mts.com.

PCB® and ICP® are registered trademarks of PCB Piezotronics, Inc.

MTS Sensors, a division of MTS Systems Corporation (NASDAQ: MTSC), vastly expanded its range of products and solutions after MTS acquired PCB Piezotronics, Inc. in July 2016. PCB Piezotronics, Inc. is a wholly owned subsidiary of MTS Systems Corp.; IMI Sensors and Larson Davis are divisions of PCB Piezotronics, Inc.; Accumetrics, Inc. and The Modal Shop, Inc. are subsidiaries of PCB Piezotronics, Inc.
